

May I extend my warmest thanks to everyone in our community for such a positive start back to the 2026/2027 academic year. I would like to welcome all new starters to our wonderful provisions – both pupils and staff. We are certainly looking forward to working with everyone within our teams.

This is absolutely going to be our greatest year (to date)! We have much to look forward to linked to our school vision – see attached – and our school anthem – “Step by step.” As you can see from our attached school development plan 26/27, community development lies at the heart of both of our schools. We want our schools to be at the heart of our communities; bridging support through as many different agencies, businesses and charities as we can to ensure our young people and their families can flourish. Please watch out for a Google questionnaire whereby you can express what you would like our community HUBs to look like and what you can potentially offer to support and enhance this space. Our other main driver this year is that of attendance. Research clearly shows us that children who are regularly in school – over 96%, – achieve better and develop more successfully. It is therefore imperative all children are in school every single day, so that they can shine. We will be working even more intensely with all families to ensure we achieve this across both of our schools. Please do look over these key documents and email in to our office@ emails to offer any contributions or thoughts.

As always, I look forward to an inspirational year whereby we continue to excel –step by step, bit by bit, stone by stone.

Have a great weekend

Miss Green

Last week, we had the pleasure of hosting some very special guests at Bramley Park when 'Into The Wild' came to visit our pupils. It was a memorable experience for everyone involved. Our students had the opportunity to meet a variety of fascinating creatures, including a snake, a gecko, a chameleon, a tarantula, and, of course, the lovely Norman, a tortoise who seemed to enjoy exploring the classroom!

The children had a fantastic time learning about these intriguing animals and interacting with them, which sparked great curiosity and excitement throughout the school.
